

SAVINA

Visitor's Information

At the turn of the 20th century Pjazza **Savina** in Rabat was not just the geographic heart of Gozo, it was also the centre of everyday trading. The **Savina** open market provided everything from delicious fresh produce, cheeses and wines, to crafts, fishing nets and woven attire. Magro Brothers were already renowned provision merchants and their offices were set right in the hub of this trade centre.

Over the years, the Magro Brothers built an organization that is dedicated to create distinctive value to their customers. Integrity, reliability, dedication for quality and a passion for good taste have always been their convictions to ensure customer satisfaction. Today, four generations later, Magro Brothers are the leading food processors in Malta, reputable provision merchants and have business connections with some fifty countries in four continents.

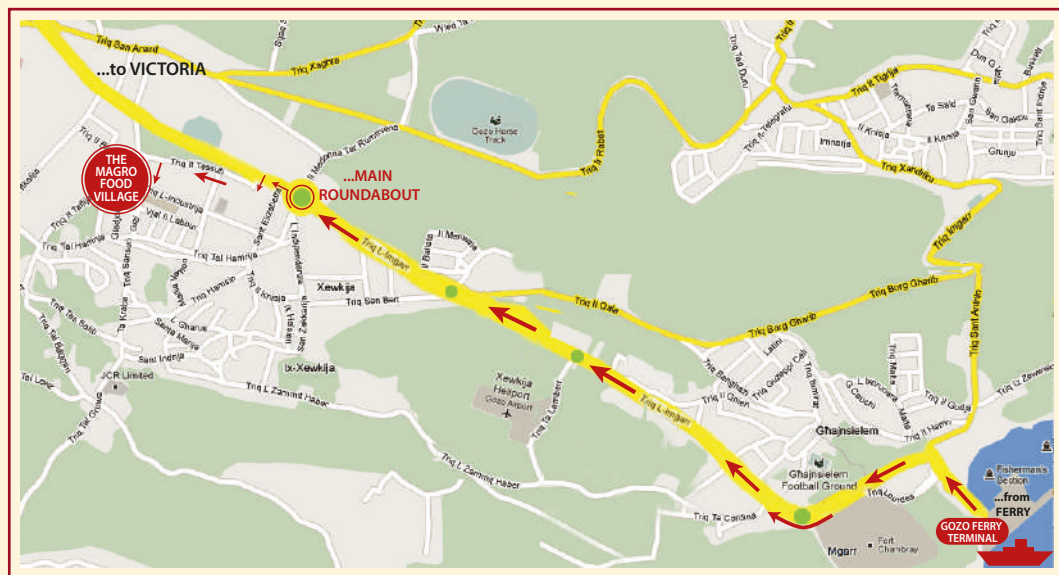

Savina products are dedicated to creating luxury that inspires and stimulates the five senses.

The above sensation can be enjoyed at Savina Creativity Centre which is situated in the Magro Food Village in the outskirts of Xewkija. At this artisan Centre you can watch food & sweet delicacies in the making and an exclusive multimedia show portraying Gozo scenery and local crafts & tradition of the island.
